### NOTES:

- Data carried over to the following month will be limited to the monthly data allocation for which the Subscriber has signed up, and/or the amount of any Bandwidth Booster purchased by the Subscriber in that month.
- All of the iBurst ADSL packages are automatically activated with Pay-per-use. Pay-per-use data will be billed in 1 megabyte increments rounded up to the next megabyte. Opting out of Pay-per-use on an iBurst ADSL package means that upon reaching the data limit/cap for the month, the Subscriber's service will be capped. No throttling is available on ADSL packages. Where a Subscriber is capped, the Subscriber will be required to top up with a Bandwidth Booster in order to continue normal service. No Pay-per-use opt out is available on FreeFlo packages.
- A complete fax rates schedule can be viewed at [www.iburst.co.za](http://www.iburst.co.za).
- Insurance options covering hardware are not available on ADSL.
- The monthly fee includes free calls to other iCall Subscribers. A complete rates schedule can be viewed at [www.iburst.co.za](http://www.iburst.co.za).
  - Data transfer rates are not guaranteed and are dependent on network availability and utilisation.
  - Subscription is subject to a once-off Activation fee of R99.
  - The first payment for a newly activated Subscriber will be debited within two working days of contract activation.
  - All prices include VAT.
  - All prices effective 1 June 2009 to 30 June 2009 and subject to stock availability.
  - Packages will be received by 17H00 on the next working day to main centres once all documents have been received. Express, stand alone accessory and outlying deliveries will be charged for.
  - Standard Terms and conditions available on [www.iburst.co.za](http://www.iburst.co.za) apply. Errors and omissions excepted.
